### DESCRIPTION

The AL835 is the perfect solution for pickup truck owners with heavy chairs. The AL835 provides ample clearance and reach with one less motor than the competition, meaning fewer buttons and simpler operation.

This model is equipped with a newly designed anti-rotate strap system and compact base for a better fit in the truck bed. This convenient lift brings the manual wheelchair, scooter or power chair right to the driver's or passenger's side door. The AL835 Side-Loading Lift easily loads virtually any mobility device into the bed of your pickup truck and unload it to the driver or passenger side door.
